Career Objective

Aspiring **Data Analyst** skilled in **Python**, **SQL**, and **Power BI**, with hands-on experience in data cleaning, analysis, and visualization. Passionate about transforming data into actionable insights to support strategic decision-making. A collaborative and detail-oriented professional eager to contribute to data-driven projects.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2022 – 2026

GLA University, Mathura, Uttar Pradesh

CGPA: 7.71 / 10

Projects

HR Data Dashboard

November 2025

- Developed a multi-page Power BI dashboard featuring KPIs, trend analysis, and drill-down insights to support data-driven decision-making.
- Cleaned and transformed raw data using **Power Query**, built optimized data models, and created advanced **DAX** measures for accurate reporting.
- Designed interactive visuals with slicers, filters, and cross-page navigation, enabling stakeholders to explore data efficiently and uncover actionable insights.

Predicting Traffic Accidents

July 2024

- Developed a **Decision Tree** model in Python to predict accident likelihood using weather, time, and road conditions.
- Performed data preprocessing, feature encoding, and exploratory data analysis to identify high-risk patterns.
- Evaluated performance using accuracy, precision, recall, and F1-score for actionable road safety insights.

Technical Skills

Programming Languages: Python, SQL, Java (Basic)

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Seaborn

Data Tools: Power BI, MS Excel, Google Sheets

Version Control: Git, GitHub

Development Tools: VS Code, Jupyter Notebook

Training & Certifications

- Technical Guftgu – Hands-on training in Python, Machine Learning, and Data Science (June 2024 – July 2024)
- Leadership and Team Effectiveness – NPTEL (Elite)
- Power BI Data Visualization and Dashboard
- Excel Essential Training (Microsoft 365)
- SQL (Basic) – Certification of Accomplishment
- Data Analysis with Python – IBM Developer Skills Network
